Learning Outcomes MSc Finance

Graduates of the MSc degree programme Finance will have knowledge, understanding and skills required to define, analyze and evaluate real and complex financial problems on both a societal level and the level of companies and institutions, and to design solutions for these problems. Graduates of the MSc programme Finance will have advanced academic knowledge of finance theory and research methods in finance. More specifically, they will have advanced knowledge in a selected number of specific sub-fields in finance, such as derivative instruments, corporate finance, corporate valuation, responsible finance and investment, banking and insurance, portfolio theory, institutional investment management, corporate governance, behavioral finance, and finance and development. Graduates of the MSc programme Finance will have both academic and professional skills. With respect to academic skills, the programme focuses on collecting and analyzing data, planning and designing a research project, and academic writing. Examples of professional skills are computer model building for business decisions, presenting in public, identifying and analyzing problems, and working in teams.

Graduates of the MSc degree programme Finance are trained for positions in which they contribute as a specialist in finance to decision-making in private (multinational) companies and financial institutions, consultancy firms, (international) institutional organizations such as the IMF, World Bank, ECB, et cetera, and governmental institutions. The curriculum of the programme offers several options to develop a specific labor market orientation. By selecting specific sets of courses, students may develop one of four labor market profiles, i.e. corporate finance, investing, banking and finance and development.

A Subject-specific learning outcomes

The MSc Finance graduates:

- A.1 have advanced academic knowledge and understanding of recent finance theories and models.
- A.2 have advanced academic knowledge and understanding of research methods in finance and are able to apply these methods to real and complex financial problems.
- A.3 are able to interpret interrelationships of sub-fields in finance and can draw links between the results of sub-fields in finance found in academic and subject-specific publications on the one hand and relevant (inter)national financial developments on the other hand.

The MSc Finance graduates are able to understand contemporary international literature in finance, to apply academic knowledge when analyzing new or unknown financial problems, and to deliver original contributions in an academic as well as a professional environment

B Academic learning outcomes

The MSc Finance graduates are able to:

- B.1 recognise and analyse a finance related problem.

DIPLOMA SUPPLEMENT

- B.2 do a literature search and make a critical assessment of theoretical concepts, research methodologies and empirical findings in international academic publications.
- B.3 independently formulate a problem definition, select appropriate research and analysis methods and plan and conduct research.
- B.4 collect quantitative and/or qualitative data, analyse, interpret and synthesize these data, create an argument, develop a solution, solve problems and give theory and evidence-based advice.
- B.5 apply research methods in finance within the appropriate context.
- B.6 contribute independently to the body of applied knowledge within the finance domain.

Furthermore, the MSc Finance graduates have:

- B.7 an investigative and critical attitude towards the potential and limitations of research in the finance discipline.

C Social and communication learning outcomes

The MSc Finance graduates:

- C.1 have social communication and English language skills (in reading, writing, presenting and discussing) to logically, clearly and convincingly express his/her own activities, assumptions, opinions, solutions and decisions both to non-professionals and fellow professionals.
- C.2 have a professional attitude and are able to work toward a solution, systematically and accurately, and are able to take the initiative, listen, discuss and plan, in a professional environment.
- C.3 are able to reflect critically on their own and other people's work, paying attention to both the logical coherence and the economic relevance and are able to adjust to constructive feedback or corrections if necessary.

D Study skills and professional orientation

The MSc Finance graduates are able to:

- D.1 prioritise, plan and manage time and work effectively.
- D.2 reflect on their learning process and achievements, including strengths and weaknesses.

8. INFORMAȚII PRIVIND SISTEMUL NAȚIONAL DE ÎNVĂȚĂMÂNT INFORMATION ON THE NATIONAL EDUCATIONAL SYSTEM

Formare continuă - Continuing Professional Training

OVERVIEW OF THE NATIONAL HIGHER EDUCATION SYSTEM

Access to higher education is based on the baccalaureate diploma (obtained at the end of upper secondary education) and access to master programmes is based on the bachelor degree (BA/BSc/BEng).

Bachelor studies (BA/BSc/BEng) presuppose 180-240 credit points, calculated in accordance with the European Credit Transfer System (ECTS/SECT), and ends with the level 6 from the European Qualifications Framework for lifelong learning (EQF/CEC).

Master studies (MA/MSc/MEng) presuppose 60-120 credit points, calculated in accordance with the European Credit Transfer System (ECTS/SECT), and ends with the level 7 EQF/CEC.

For professions regulated by European norms, regulations or good practices, bachelor (BA/BSc/BEng) and master studies (MA/MSc/MEng) can be provided as part of a 5 to 6 year full-time programme of study, thus diplomas are recognised as master's degree certificates (the following fields of study are considered: Medicine - 360 ECTS/SECT, Dentistry - 360 ECTS/SECT, Pharmacy - 300 ECTS/SECT, Veterinary Medicine - 360 ECTS/SECT, Architecture - 360 ECTS/SECT).

PhD studies result in a doctoral research thesis, while successful candidates are awarded a PhD diploma. Doctoral studies allow obtaining a qualification at level 9 EQF/CEC.

The Romanian higher education system is an open system. All Romanian universities use the European Credit Transfer System (ECTS/SECT).

University programs can be organized, as appropriate, according to legal regulations, at the following forms of education: full time, part time and distantly.

Universities also provide continuing professional training programmes based on the market demands.
